

TW4: Data Visualization

Names: Alfin Abraham, Karthik Nalla

GitHub: [\(Alfin\) TW4 GitHub link](#), [\(Karthik\) TW4 GitHub link](#)

Summary:

After finishing TW4, we gained an understanding of the significance of data visualization in the data science methodology. We also learned that, in order to solve any data science problem, we must approach it from all angles and use a variety of visualization techniques and tools in order to gain accurate insights, which will aid us in the modelling stage.
